At that time I was at home doing my drug programming and mental health programming. I was working full time for proctor and Gamble. I got a place

I got married, even adopted a half blind kitten. I now lost my wife Tina she passed away 7-4-21. That is by far the worst punishment I ever felt and have to live with for the rest of my life. Being locked up in a U.S.P has set me back so far its

always on lockdown. I have over 10 months in already. I was told could have the B.O.P Back on lockdown I can't program nothing. I am also on lock for safety and security Reasons. I am trying to come home not die in

here. I am not a gang member. I am what people say easy prey. This has by far been the worst wake up call Ever. My Asthma makes me open to the virus and its running rampant. My Mom is in her 70's and I pray will keep strong. I was in every Road treatment and I graduated president of the program no problems. I am asking if there is some way some how that my sentence can be for me to leave here and report there to get back on my programs. I really need them beings I lost my wife and all this look down my only help would be that or home detention that way I can program and take care of my mother and keep my health good so I don't get this virus. mainly I don't want to die while in a U.S.P. I pray you will help me I thank you very much for your time in this matter.
